MONTH IN ROMAN NUMERALS

EL GOLED in 1957 the registration etiquette required the Postmaster to write in the Post Office location. In 1958 with no etiquette the pencilled notation suffices.

SUDAN TOWN POSTMARKS

The two impressive Sudan collections come from one owner and represent a lifetime of searching out rare stamps and postmarks. The cancel collection in a Scott Speciality Album consists of nearly 100 pages and includes at least 66 Post Offices with at least one legible example on stamp or cover. There are 53 covers (45 of these are registered) and a quantity of large pieces as well as several hundred stamps. This collection has a number of covers showing a progression of registration markings, one being only a pencil marking of R followed by the number in Arabic.

It is unlikely we will ever have an opportunity to offer a similar collection.

Our price: \$1950.

JUNE 2013 AND ROYAL/ROYALE 2013

This month we are off to the Royal Philatelic Society of Canada Convention in Winnipeg June 21-23. A few weeks ago we sold a pre-Castro Cuban stamp on eBay but this transaction was flagged by Paypal "identified activity that is in violation of United States regulations administered by the Department of the Treasury's Office of Foreign Assets Control".

Our Paypal account was suspended until we supplied personal information (Driver's license etc.) for the files of OFAC.

As a result no one can buy stamps of restricted countries using Paypal. The good news is you can buy them directly from us (even if you live in the USA). We offer three wonderful collections and five better items from each of the seven restricted countries discounted more than 25% during the month of June.

It is not a political statement but because of our contrarian nature that we title this flyer

the "naughty" countries

SUDAN - THE STAMPS OF 1897-1980'S.

A primarily used collection except for perforated initials issues which are offered both mint and used. The collection is virtually complete into the 1960's except the following: 1897 10p (which is found in the postmark collection), 1905, several Army official stamps and 1935 10p and 50p values.

Included are plating studies of the first issue types of regular issues, postage dues and officials. Of special note are the Army Officials 1905-1911 (Sc M03-M05) and AS perfins mint and used (MOA17-27), as well as SG perfins and telegraph stamps listed by SG but not by Scott. We counted the Scott CV to 1951 at \$3873.80 and the SG listed items at £1203.50 as especially the latter include further unlisted varieties.

A worthwhile collection and well worth our price of **\$2500.**

CUBA - 1855-1961

A wonderful collection in a hard bound Cuban made album of 285 pages entitled "Historia del Correo en Cuba - a Través de sus Emisiones Postales" and produced by Pulicaciones Filatélicas GUERRA - AGUIAR San Lazaro 609 Habana Cuba.

Included are non-Scott listed varieties from the earliest issues and modern philatelic souvenir sheets of no postal validity.

Two whole stamp issues not listed in the major catalogues are an 1897 Revolutionary set of 4 and a 1935 set. There are a number of cross-gutter blocks both mint and on cover. Beginning in 1958 twenty-seven of the last pages have up to seven commemorative postmarks applied directly to the page.

The basic stamps listed by Scott have a CV of \$7378.45 counting stamps on cover as used stamps. In addition, a non-Scott list souvenir sheet of 1951 is listed in Michel at \$120 Euros bringing the total CV to over \$7500. The stamps are mixed hinged and never hinged and some of the earlier stamps have tone spots on the gum. With these caveats, the overall quality is very fine with the best souvenir sheets being never hinged.

Net \$3750.
