**October-November 2013**

Our last flyer "The Naughty Countries" resulted in strong sales, and we have seen the same in the store over the last few months. We have many new developments to tell you about.

In August and September we purchased dozens of collections as well as hundreds of better single items. Four purchases stand out. Two strong Canada and B.N.A. collections have provided mint singles and mint blocks to help replenish our inventory, even as many more delightful stamps are still to be found in the albums and stockbooks. In addition, two collections specifically of the Canada Admiral issue result in many specialized offerings we present here. In fact, this flyer could be said to have a Nautical theme, because we highlight an Inverted Seaway while everything else is a selection of Admirals.

As is our practice, we can offer time payments for higher-priced items. Please contact [ian@iankimmerly.com](mailto:ian@iankimmerly.com) to make arrangements.
